

Giuseppe MURRO

Data Scientist

 [linkedin.com/in/giuseppemurro](https://www.linkedin.com/in/giuseppemurro)  github.com/gmurro

 +39 3409584750  g.murro23@gmail.com

 <https://gmurro.github.io/>

 He/him  23 march 1998 (24 years old) in Acquaviva delle Fonti (BA), Italy

PROFESSIONAL EXPERIENCE

- January 2023**
Present | **Junior Data Scientist, TREATWELL, MILAN, Italy**
Permanent job - FULL-TIME EMPLOYMENT CONTRACT
Member of the Machine Learning team applying Artificial Intelligence solutions for advanced features on the Treatwell app.
    
- June 2022**
November 2022 | **Data science intern, 3RDPLACE, MILAN, Italy**
Datrix SpA - CURRICULAR INTERNSHIP
Research and development of an Adversarial Machine Learning solution applied in the NLP field. The job is part of the CybersecH project promoted by Italian Government.
 > Adversarial attack applied to textual inputs
 > Machine learning hardening
     
- September 2020**
December 2020 | **Technical/scientific consultant, CILAB, UNIVERSITY OF BARI "ALDO MORO", Italy**
Department of Computer Science - OCCASIONAL SELF-EMPLOYMENT CONTRACT
Development and integration of software modules for the RPASinAir research project co-funded by the European Union, under the supervision of the CILab laboratory.
 > Extension of the work done during the Bachelor's thesis
 > Integration between C++ and python software modules
 > Inter-process communication management in a publish/subscribe framework using NNG library
 > Build automation using CMake
 > Crowd detection methods for drone safe landing using pre-trained DNN models
      
- September 2019**
November 2019 | **Clerk, STUDENT ADMINISTRATION OFFICE, UNIVERSITY OF BARI "ALDO MORO", Italy**
Department of Agricultural Science - SELECTED FOR STUDENT COLLABORATION ACTIVITIES
I have been selected to make 150 hours of collaboration at the University structures satisfying the merit requirements of the call. Involved in administration office activities.

EDUCATION

- September 2020**
December 2022 | **Alma Mater Studiorum - University of Bologna, BOLOGNA, Italy**
Master's degree - LM-32 ARTIFICIAL INTELLIGENCE
 > The programme address specialized topics like Machine Learning, Automated Reasoning, Computer Vision, Natural Language Processing, Optimization
 > Courses are fully taught in English
 > Thesis title : "SynBA : A contextualized Synonym-Based adversarial Attack for text classification"
 > **Final grade : 110/110 cum laude** - GPA of 4.0/4.0 over the 2 years (Italian GPA = 29.4/30)
- August 2021**
February 2022 | **Vrije Universiteit Amsterdam, AMSTERDAM, Netherlands**
Erasmus+ Mobility for Studies - ARTIFICIAL INTELLIGENCE
 > Main research topics : Reinforcement Learning and Evolutionary Computing.
 > Continuous exposure to expats leading to significant improvement of my English level
 > The experience meant a great improvement in my soft skills : adaptability to change, problem-solving, open-mindedness.
- September 2017**
July 2020 | **University of Bari "Aldo Moro", BARI, Italy**
Bachelor's Degree - L-31 COMPUTER SCIENCE AND TECHNOLOGIES FOR SOFTWARE PRODUCTION
 > Mainly focused on the techniques of software engineering
 > Thesis title : "Design, development and integration of a crowd detection software module in a RPAS"
 > **Final grade : 110/110 cum laude** - GPA of 3.85/4.00 over the 3 years (Italian GPA = 29.16/30)

OTHER COURSES

February 2022 June 2022	AlmaEnglish B2 - University of Bologna, BOLOGNA, Italy AlmaEnglish project offers the opportunity to improve English language skills and obtain the international language certification IELTS Academic. <ul style="list-style-type: none">> Selected after a placement test> 40 hours of face-to-face teaching + 10 hours of e-learning support> Overall IELTS Band Score 6.5 achieved on 16 July 2022 (CEFR Level B2)
March 2019 June 2019	CyberChallenge.IT 2019, BARI, Italy Italian training program in cybersecurity for undergraduate students organized by CINI. Former member of the University of Bari "Aldo Moro" team. <ul style="list-style-type: none">> Selected from 20 out of an initial 360 candidates for the course> Studying network security principles, possible attacks and countermeasures to counter them learned> Practice in CTF hacking competitions using Kali Linux

TECHNICAL SKILLS

Programming Python, Java, Scala, Prolog, MiniZinc, C
Libraries NumPy, Pandas, Scikit-learn, TensorFlow, Pytorch, OpenCV
Technologies Git, Docker, Kubernetes, Spark, Linux, Google Cloud

LANGUES

English (B2) ●●●●○
Italian (Native) ●●●●●

PROJETS

NLP PROJECTS : TEXT SUMMARIZATION, POS TAGGING & FACT CHECKING

JUNE 2022

github.com/gmurro/part-of-speech-tagging
github.com/gmurro/fact-checking

github.com/gmurro/podcast-summarization

Application of RNN and Seq2Seq to solve three well known NLP tasks : *Text summarization* applied to podcast transcripts, *Part of speech tagging*, the process of marking up words in a text with the correspondent grammatical tag and *Fact checking*, to verify the reliability of some statement, by comparing it with a given knowledge base.

Python TensorFlow Keras LSTM Seq2Seq BART HuggingFace NLP

MOUNTAIN SCOOTER PROBLEM

FEBRUARY 2022

github.com/gmurro/mountain-scooter-problem [Report](#)

Addressing the *Mountain Car problem*, a classic reinforcement learning problem, using 2 different approach : Hybrid Nelder-Mead Particle Swarm Optimization through neuroevolution and Q-Learning algorithm.

Python OpenAI Gym Numpy Optimization Reinforcement Learning

EVOLUTIONARY EVOMAN PLAYER

SEPTEMBER 2021

github.com/gmurro/evoman-player-evolutionary-computing [Report](#)

Implementation of two *Evolutionary Algorithms* to teach an agent player how to fight against an enemy that shoots, jumps and moves using a python framework called EvoMan.

Python NEAT EvoMan Neuroevolution Pygame

VERY LARGE SCALE INTEGRATION

JULY 2021

github.com/gmurro/VLSI [Report](#)

Implementation of different solution in CP, SAT and SMT to solve a Constraint Optimization Problem about VLSI (Very Large Scale Integration) in order optimize the placement of electrical circuits on a plate.

Python MiniZinc Constraint Programming

FOOD RECOGNITION

MARCH 2021 - JUNE 2021

github.com/gmurro/food-recognition [Report](#)

The Food Recognition challenge is a competition hosted by Alcrowd. Implementation of *Deep Learning* techniques to train **segmentation models** which can detect the individual food items from images.

Python TensorFlow UNet Segmentation

TABLUT AI PLAYER

NOVEMBER 2020

github.com/gmurro/tablut [Slides](#)

Java-based intelligent agent able to play the ancient board game Tablut using MinMax algorithm. Winner of Tablut Students Challenge 2020 of the Fundamentals of Artificial Intelligence course held at the University of Bologna

Java Game Theory MinMax Tree search
